16. Please list other questions, concerns or comments that you have about you and oral health.	r mouth —

DENTAL VISIT COVID INTRUCTIONS/CONSENT

Prior to Arrival

- 1. In order to protect you and our staff, please fill out and send us any forms we send you. We understand this process may be tedious, but the information is required by various government agencies for patient and staff protection.
- 2. If for some reason, you can't fill out a form, call us and we will verbally review the forms with you.
- 3. Patients must fill out a new COVID screening form prior to every visit. If the form indicates that you (your child) is at risk of having COVID, we will ask you to cancel your appointment.

Arrival

Please arrive 5 minutes prior to your scheduled visit. When you arrive for your visit, stay in your car and call our office for check-in instructions. You may be asked some health questions. (732) 449-6564.

Masks/Warm Clothes

Please wear a mask at all times except when the Dentist advises you to remove it. If you do not have a mask we will provide it at check-in. All office windows will be open, so please dress in layers or bring something to keep you warm if it is cold outside.

Guardians

There is a limit of one guardian for children under 18 or patients who need assistance. Guardians must wear masks and are asked to return to their cars while the patient is being treated. We will call you when the patient is finished.

Patients with Dental Insurance

Those patients who have been furloughed or lost employment will be fully responsible for verifying existing coverage. Our office will make every effort to help patients, however, lapses in coverage may not recorded by the insurance company until after a date of service. Patients are responsible for any dental fees not covered by insurance.

Hand hygiene protocol

Alcohol hand sanitizer is located throughout the office and patients are encouraged to use as needed.

CDC/OSHA/Government Infection Control

As in the past, our office meets or exceeds all infection control protocols to limit transmission of all diseases, including COVID-19 virus. We have also implemented many new protocols. Our staff is symptom-free, undergoes COVID screening every day, and, to the best of their knowledge, have not been exposed to the virus. Our protocols also include as much social distancing as practical.

Informed Consent for Dental Visit

Our office is committed to reduce the risks of disease transmission. Despite this, due to the nature of viruses, there is still a chance that you (your child) could be exposed to a virus in our office, just as you (your child) might be at another public place.

I understand and agree to the statements in this document; I also accept the risks and consent to dental treatment.
